# WORLD CONSTRUCTION ANNUAL INDEX

## AIR & RAIL TRANSPORT STRUCTURES

Highway technique speeds airport job ..... Jan. p. 36
Nairobi's new airport terminal takes shape ..... Mar. p. 54
Sydney's rapid transit system makes headway ... Mar. p. 58
Stockholm expands its Metro facilities ..... Mar. p. 66
Plant shortage slows cut-and-fill work for Malta airport ..... Apr. p. 77
Coping with unusual French airport design ..... May p. 49
Somehow they built 37 railway bridges in two working seasons ..... May p. 52
The Second Trans-Siberian Railway ..... June p. 86
Slotted pipe keeps U.S. airport dry ..... June p. 106
A novel method of curtain walling ..... Sep. p. 118
Runway overlay calls for tight control ..... Oct. p. 85

## BRIDGES

For cantilever bridge builders ..... Feb. p. 30
A tale of two German bridges ..... Apr. p. 78
Somehow they built 37 railway bridges in two working seasons ..... May p. 52
The Second Trans-Siberian Railway ..... June p. 86
Safety device can be used in highway and bridge construction ..... June p. 88
Pile failure delayed Copenhagen bridge completion ..... June p. 93
World's longest steel arch bridge is under construction in USA ..... June p. 104
Installing stays on Tiel Bridge ..... June p. 112
Movable scaffold cuts time and costs on Japan's longest bridge ..... July p. 52
Prestressed PIC bridge decks ..... Aug. p. 27
A new technique to stop damage of concrete roads and bridge decks ..... Sep. p. 114
Floating bridge facilitates pumping concrete offshore ..... Oct. p. 80
Military developments can aid civil construction . Dec. p. 36
Japan's longest cable-stayed bridge ..... Dec. p. 43

## BUILDINGS

Nairobi's new airport terminal takes shape ..... Mar. p. 54
Building a stadium in six months? ..... Mar. p. 85
Aluminum production complex rises in Egyptian desert ..... Apr. p. 71
For greater fire safety in high-rise buildings ..... May p. 21
Low-cost-housing contractors turn to mass production methods ..... May p. 56
Versatile use of rooftop cranes solves concrete panel placement problem .. May p. 74
A thousand piles support Dutch cellular-design office block ..... July p. 62
Roofing with a resin-motor base ..... Aug. p. 26
Epoxy water-slurry flooring mortars ..... Aug. p. 28
Strengthening of existing structures ..... Aug. p. 35
Alaska terminal construction and the environment ..... Aug. p. 36
U.S. architect designs earthquake-resistant building ..... Aug. p. 44
In foundation construction, expect the unexpected ..... Aug. p. 50
Sheet-pile/shoring system designed for sand and mud high-rise site .... Sep. p. 70
New skyscraper will tap sun's energy ..... Sep. p. 74
Okinawan Fair is ocean-oriented ..... Nov. p. 24
Silo construction: two UK examples ..... Dec. p. 38
French framing system covers a lot of ground ..... Dec. p. 68

## CONFERENCES & EXHIBITS

First Offshore International Exhibition focuses on North Sea ..... Jan. p. 46
The UK's Public Works Show ..... Mar. p. 37
New York City "hard hats" put on an art show .. Mar. p. 53
Feature report on Conexpo '75 ..... Apr. p. 27
Oceanology International '75 ..... June p. 68

## CONSTRUCTION MANAGEMENT

Coping with inflation I: Radical methods are needed ..... Jan. p. 25
Computer programs for the Structural Engineer .. Jan. p. 52
Computer-based system helps manage engineering graphics ..... Feb. p. 25
Coping with inflation II: Is index-linking an answer? ..... Mar. p. 15
Women in construction: Preparing for a career .... Mar. p. 16
The Third World: Where the action is ..... Mar. p. 22
A new look at ripping costs ..... Mar. p. 28
How to estimate tire life ..... Mar. p. 30
Risk management will reduce cost of underground construction. Apr. p. 67
Women in construction: Coming up through the ranks ..... May p. 10
Coping with inflation, Part III: Unconventional accounting can help ..... May p. 25
Construction Equipment: Is it better to rent or to buy? ..... May p. 72
Underground construction ... June p. 32
Assessing noise and dust caused by earthmoving plant ..... June p. 84
International finance report ..... July p. 16
Women in construction: Two for the money ..... Aug. p. 15
A computer system to reduce construction costs . Aug. p. 21
How financing will affect the future of construction ..... Aug. p. 43
How monetary reform affects the contractor ..... Aug. p. 43
Motivating construction employees to work safely . Aug. p. 48
Finance report: The World Bank and low-cost roads ..... Sep. p. 21
Construction site lighting ..... Sep. p. 32
Can we afford today's way of bidding? ..... Sep. p. 81
Women in construction: How much is a woman civil engineer worth? ..... Sep. p. 82
Looking for a woman in construction? ..... Oct. p. 21
Site security ..... Oct. p. 32
Construction opportunities in Eastern Europe ..... Oct. p. 58
Packaging your construction loan request . Oct. p. 73
A *World Construction* survey: The status of women in construction .... Nov. p. 46
Establishing equitable pile payment policies ..... Nov. p. 48
Construction opportunities in the Middle East ..... Dec. p. 25
Military developments can aid civil construction ..... Dec. p. 36
What about centralized lubrication systems? ..... Dec. p. 64

## DAMS

The formwork at Altenwoerth ..... Jan. p. 32
Cabora Bassa: The start of something big ..... May p. 58
Grinding smooths steep dam spillway ..... Aug. p. 44
Feeder conveyors reduce costs of concrete pouring for Mexican dam ..... Sep. p. 14
Bucket wheel soil placing and asphalt lining used on Italian dam ..... Sep. p. 81
Rock excavation paces river diversion ..... Oct. p. 41
Spillway built from top down serves as diversion conduit ..... Nov. p. 40

## DRILLING & BLASTING

Blasting Primer: Are you using delay caps correctly? ..... Jan. p. 41
Cold weather operating hints for crawler drills .... Feb. p. 32
Blasting Primer: How about blasting in the quarry? ..... Apr. p. 14
Plant shortage slows cut-and-fill work for Malta airport ..... Apr. p. 77
Blasting Primer: Trenching is another problem ..... June p. 15
Underwater tunneling in Dubai—without a halt to shipping traffic ..... June p. 48
Spiral-blast tunneling machine allows continuous work at the face ..... June p. 52
Tunnels are first phase of Japanese railway expansion ..... June p. 57
Constructing the tunnel for the Sao Paulo subway . June p. 59
Paris Metro's new techniques to reduce subsidence in soft ground tunneling ..... June p. 64
What's the excavator doing there? ..... Aug. p. 56
Mole bores through mixed rock for Canadian sewer tunnel ..... Sep. p. 112

## EARTHMOVING

Excavator is converted to a dredge ..... Jan. p. 58
Load-and-carry setup cuts operating costs ..... Feb. p. 52
A new look at ripping costs ..... Mar. p. 28
The French dig themselves a super port ... Mar. p. 62
Bulldozers that work in water ..... Mar. p. 87
Plant shortage slows cut-and-fill work for Malta airport ..... Apr. p. 77
Major construction effort to develop South African port ..... Apr. p. 82
Nigeria's road rehabilitation program .... May p. 32
Cabora Bassa: The start of something big ..... May p. 58
Assessing noise and dust caused by earthmoving plant ..... June p. 84
Raising cane with a bulldozer ..... June p. 93
WANTED: Low-maintenance earthmovers ..... July p. 47
Twin-engine scrapers make it look easy ..... Aug. p. 68
On site: overcoming lighting problems ..... Sep. p. 52
New shovel has one-third bigger bite ..... Sep. p. 96
Building ski slopes in the Alps, on the plains .... Oct. p. 49
Operation long reach: The fast way to build a barge canal ..... Oct. p. 54
Truck fires: The problem and solution. ..... Oct. p. 65
For those long hauls—take the trailer train ..... Nov. p. 34
A tunneling excavator! Why not? ..... Nov. p. 36
Road construction: In the desert, methods should be different ..... Nov. p. 56
Military developments can aid civil construction ..... Dec. p. 36
Unique equipment recoups time lost in French autoroute construction .... Dec. p. 51
Four different methods advance long water tunnels in South Africa ... Dec. p. 60
Scrapers were used to move 1½ million tons of burning slag ..... Dec. p. 71

## EQUIPMENT EVALUATION & MANAGEMENT

Computer-based system helps manage engineering graphics ..... Feb. p. 25
Cold weather operating hints for crawler drills .... Feb. p. 32
What you can do about parts shortages ..... Feb. p. 63
A new look at ripping costs ..... Mar. p. 28
How to estimate tire life ..... Mar. p. 30
Bulldozers that work in water ..... Mar. p. 87
Controlling noise from piledrivers ..... Apr. p. 52
Looking for a quiet portable air compressor? .. Apr. p. 54
For site use: The multi-set power station ..... May p. 45
Construction Equipment: Is it better to rent or to buy? ..... May p. 72
Safety device can be used in highway and bridge construction ..... June p. 88
Using water skates to move building modules or materials ..... June p. 94
Welding underwater: Problems and solutions .... June p. 99
WANTED: Low-maintenance earthmovers ..... July p. 47
The best in British design ..... Aug. p. 48
Feeder conveyors reduce costs of concrete pouring for Mexican dam ..... Sep. p. 14
Construction site lighting ..... Sep. p. 32
New shovel has one-third bigger bite ..... Sep. p. 96
Truck fires: The problem and solution ..... Oct. p. 65
Cold planing speeds preparation of roads for repaving ..... Oct. p. 92
Military developments can aid civil construction . Dec. p. 36
Unique equipment recoups time lost in French autoroute construction .... Dec. p. 51
What about centralized lubrication systems? ..... Dec. p. 64

## HARBORS, PORTS & OTHER MARINE STRUCTURES

Condeep: The biggest slip-forming job ever ..... Jan. p. 21
Scotch approach to building a quay wall ..... Jan. p. 24
The French dig themselves a super port ... Mar. p. 62
Hitachi's construction problem: Keeping its drydocks dry ..... Mar. p. 68
Bullodozers that work in water ..... Mar. p. 87
Major construction effort to develop South African port ..... Apr. p. 82
Tricky soils fail to stop port expansion ..... Apr. p. 90
Another way to assemble a deep-sea rig ..... May p. 41
Hydrostatically supported sand structures . June p. 74
U.S. natural gas terminal requires tunnels and tanker berths ..... June p. 80
Welding underwater: Problems and solutions .... June p. 99
The Lake of Tunis gets a vacuuming ..... June p. 111
Alaska terminal construction and the environment ..... Aug. p. 36
Offshore drill rig is built on the beach ..... Aug. p. 66
Equipment in marine site lighting ..... Sep. p. 37
Some solutions to marine construction site-lighting problems ..... Sep. p. 54
Site lighting for two marine construction projects ..... Sep. p. 61

Design can prevent corrosion in underwater construction ....Sep. p. 100
Inclined slipforming? Norwegians prove it can be done ....Oct. p. 79
Okinawan Fair is ocean-oriented ....Nov. p. 24
CONDEEP's Beryl Platform "A" revisited ....Nov. p. 27
Concrete construction underwater....Nov. p. 62
Pipeline inspection & repair underwater ....Nov. p. 73
Unusual construction method used to build UK dock ....Dec. p. 46

## HIGHWAYS

Vienne by-pass solves a traffic problem ....Jan. p. 30
Giant tunnels are jacked under flyover ....Feb. p. 42
Stretching asphalt pavement life ....Feb. p. 46
What they're researching now ....Mar. p. 89
The search for low cost, low volume roads ....Apr. p. 57
Nigeria's road rehabilitation program ....May p. 32
Assessing noise and dust caused by earthmoving plant ....June p. 84
Safety device can be used in highway and bridge construction ....June p. 88
Belgians make better use of road grooving and grinding techniques ....June p. 116
Resin-bound mortar for highway repair ....Aug. p. 30
Finance report: The World Bank and low-cost roads ....Sep. p. 21
Signs of the times: Now they're recycling roadways....Sep. p. 92
Pressure grouting strengthens deteriorated USA road sub-base ....Sep. p. 106
A new technique to stop salt damage of concrete roads and bridge decks....Sep. p. 114
Cold planing speeds preparation of roads for repaving ....Oct. p. 92
Road construction: In the desert, methods should be different....Nov. p. 56
For those long hauls—take the trailer train ....Nov. p. 34
Military developments can aid civil construction ....Dec. p. 36
Unique equipment recoups time lost in French autoroute construction ....Dec. p. 51

## INDEX

Index ....Dec. p. 73

## MATERIALS EVALUATION

Design for an ecological pavement ....Feb. p. 41
What they're researching now.Mar. p. 89
The search for low cost, low volume roads ....Apr. p. 57
Are those new building materials any good?....Apr. p. 86
Chemical grouting makes new Milan metro line possible ...May p. 80
Keeping oil in the Alaska pipeline not too hot, not too cold ....June p. 90
French framing system covers a lot of ground ....Dec. p. 68
Those ubiquitous storage ponds ....July p. 54
An introduction to polymers in concrete ....Aug. p. 22
Prestressed diaphragm walls provide protection...Sep. p. 90
Pressure grouting strengthens deteriorated USA road sub-base ....Sep. p. 106
Precast storm drain section expedites limited-easement work ....Nov. p. 37
Spillway built from top down serves as diversion conduit....Nov. p. 40

## MATERIALS PREPARATION & HANDLING

Aluminum production complex rises in Egyptian desert ....Apr. p. 71
Low-cost-housing contractors turn to mass production methods ....May p. 56
Versatile use of rooftop cranes solves concrete panel placement problem ..May p. 74
Chemical grouting makes new Milan metro line possible ...May p. 80
An introduction to polymers in concrete ....Aug. p. 22
Feeder conveyors reduce costs of concrete pouring for Mexican dam ....Sep. p. 14
Reclaiming left-over concrete....Oct. p. 56
CONDEEP's Beryl Platform "A" revisited ....Nov. p. 27
Concrete construction underwater....Nov. p. 62
Pipeline inspection & repair underwater ....Nov. p. 73

## METHODS EVALUATION

Condeep: The biggest slip-forming job ever....Jan. p. 21
Scotch approach to building a quay wall ....Jan. p. 24
The formwork at Altenwoerth....Jan. p. 32
Blasting Primer: Are you using delay caps correctly? ....Jan. p. 41
Computer programs for the Structural Engineer...Jan. p. 52
A new look at ripping costs ...Mar. p. 28
Hover platform solves Middle East construction problem ....Mar. p. 34
What they're researching now ....Mar. p. 89
Blasting Primer: How about blasting in the quarry? ....Apr. p. 14
Controlling noise from piledrivers ....Apr. p. 52
Another way to assemble a deep-sea rig ....May p. 41
Low-cost-housing contractors turn to mass production methods ....May p. 56
Probing system stops groundwater intrusion in tunnel for sewage outfall ..May p. 64
Blasting Primer: Trenching is another problem ....June p. 15
Underground construction...June p. 32
Contractor adapts techniques for working near historic buildings ....June p. 43
Paris Metro's new techniques to reduce subsidence in soft ground tunneling....June p. 64
Weighing system cuts imported steel costs ....June p. 94
Welding underwater: Problems and solutions....June p. 99
Plastic signs save time, space, money ....June p. 112
Building a water tank at ground level saves labor costs ....June p. 114
South Africa takes to pipe jacking in a big way ..Aug. p. 38
In foundation construction, expect the unexpected ....Aug. p. 50
What's the excavator doing there? ....Aug. p. 56
Sheet-pile/shoring system designed for sand and mud high-rise site ....Sep. p. 70
Prestressed diaphragm walls provide protection...Sep. p. 90
Pressure grouting strengthens deteriorated USA road sub-base ....Sep. p. 106
A new technique to stop salt damage of concrete roads and bridge decks....Sep. p. 114
A novel method of curtain walling ....Sep. p. 118
Inclined slipforming? Norwegians prove it can be done ....Oct. p. 79
Road construction: In the desert, methods should be different....Nov. p. 56
Concrete construction underwater....Nov. p. 62
Pipeline inspection & repair underwater ....Nov. p. 73
Military developments can aid civil construction ....Dec. p. 36
Silo construction: two UK example ....Dec. p. 38
Unusual construction method used to build UK dock ....Dec. p. 46
Transporting construction materials and equipment is vital for African project ....Dec. p. 58
French framing system covers a lot of ground ....Dec. p. 68

## PAVING, COMPACTION & STABILIZATION

Highway technique speeds airport job ....Jan. p. 36
Design for an ecological pavement ....Feb. p. 41
Stretching asphalt pavement life....Feb. p. 46
What they're researching now ....Mar. p. 89
Nairobi's road rehabilitation program ....May p. 32
Belgians make better use of road grooving and grinding technique ....June p. 116
Resin-bound mortar for highway repair ....Aug. p. 30
Signs of the times: Now they're recycling roadways....Sep. p. 92
Pressure grouting strengthens deteriorated USA road sub-base ....Sep. p. 106
Runway overlay calls for tight control ....Oct. p. 85
Cold planing speeds preparation of roads for repaving ....Oct. p. 92
Road construction: In the desert, methods should be different....Nov. p. 56
Asphalt cores seal dams for Hong Kong's High Island Reservoir....Dec. p. 44
Unique equipment recoups time lost in French autoroute construction ....Dec. p. 51

## PILEDRIVING

The count reached 42 blows/cm ....Feb. p. 50
Stockholm expands its Metro facilities ....Mar. p. 66
Controlling noise from piledrivers ....Apr. p. 52
Tricky soils fail to stop port expansion ....Apr. p. 90
Pile failure delayed Copenhagen bridge completion ....June p. 93
A thousand piles support Dutch cellular-design office block ....July p. 62
In foundation construction, expect the unexpected .... Aug. p. 50
Sheet-pile/shoring system designed for sand and mud high-rise site ....Sep. p. 70
Establishing equitable pile payment policies....Nov. p. 48

## PIPELINES & CANALS

30 pumps and deep wells keep job site dry ....May p. 66
Laser-guided trencher sets record ....June p. 38
Keeping oil in Alaska pipeline not too hot, not too cold ....June p. 90
Slotted pipe keeps US airport dry ....June p. 106
Finland will have world's longest continuous rock tunnel ....Aug. p. 63
Pipeline network brings natural gas to Europe....Sep. p. 98
Operation long reach: The fast way to build a barge canal....Oct. p. 54
$350-million project is first underwater outfall sewer in South America ...Oct. p. 64
Precast storm drain section expedites limited-easement work ....Nov. p. 37
Pipeline inspection & repair underwater ....Nov. p. 73

## TUNNELS

Giant tunnels are jacked under flyover ....Feb. p. 42
Stockholm expands its Metro facilities ....Mar. p. 66
Risk management will reduce cost of underground construction .Apr. p. 67
Probing system stops groundwater intrusion in tunnel for sewage outfall ..May p. 64
Chemical grouting makes new Milan metro line possible ....May p. 80
Underground construction can turn mined space into industrial development ....June p. 32
Underground construction in the year 2000 ....June p. 35
Contractor adapts techniques for working near historic buildings ....June p. 43
Using pumpable, fiberglass-reinforced rock bolts for tunneling ground control....June p. 45
Underwater tunneling in Dubai—without a halt to shipping traffic ....June p. 48
Spiral-blast tunneling machine allows continuous work at the face ....June p. 52
Tunnels are first phase of Japanese railway expansion ....June p. 57
Oslo expands underground transport system ....June p. 58
Constructing the tunnel for the Sao Paulo subway .June p. 59
Paris Metro's new techniques to reduce subsidence in soft ground tunneling....June p. 64
U.S. natural gas terminal requires tunnels and tanker berths ....June p. 80
Will Mexico City's tunneler make it? ....June p. 106
PIC tunnel support and lining system ....Aug. p. 30
Finland will have world's longest continuous rock tunnel....Aug. p. 68
Tunnel site lighting ....Sep. p. 54
Combine types of lighting when tunneling ...Sep. p. 59
Australian contractors advance new subway ....Sep. p. 87
Mole bores though mixed rock for Canadian sewer tunnel....Sep. p. 112
Rock excavation paces river diversion ....Oct. p. 41
A tunneling excavator! Why not? ....Nov. p. 36
Four different methods advance long water tunnels in South African project....Dec. p. 60

## WATER & WASTE MANAGEMENT STRUCTURES

Probing system stops groundwater intrusion in tunnel for sewage outfall ..May p. 64
30 pumps and deep wells keep job site dry ....May p. 66
The Lake of Tunis gets a vacuuming ....June p. 111
Building another tank at ground level saves labor costs ....June p. 114
Those ubiquitous storage ponds ....July p. 54
South Africa takes to pipe jacking in a big way ..Aug. p. 38
Finland will have world's longest continuous rock tunnel ....Aug. p. 63
Mole bores through mixed rock for Canadian sewer tunnel....Sep. p. 112
Rock excavation paces river diversion and fast construction work ....Oct. p. 41
Building ski slopes in the Alps, on the plains ....Oct. p. 49
$350 million project is first underwater outfall sewer in South America....Oct. p. 64
Spillway built from top down serves as diversion conduit....Nov. p. 40
Asphalt cores seal dams for Hong Kong's High Island reservoir ....Dec. p. 44
Four different methods advance long water tunnels in South Africa ...Dec. p. 60
